PROJECTS

TaskFlow – Project Management App   Aug. 2023 – Sep. 2023
iOS Developer   SwiftUI | Core Data

- Developed a project management app following an MVVM design pattern to separate logic from user interface controls. This app incorporates features such as personalized onboarding and data persistence between sessions.

Clear Sky – Weather App   Aug. 2023 – Sep. 2023
iOS Developer   SwiftUI | CoreLocation | OpenWeather API

- Developed a weather app in accordance with the human interface guidelines to provide a design users appreciate. This app incorporates features such as providing users with real-time weather details about their current location.

Viva Design – Ecommerce Website   Jun. 2023 – Aug. 2023
Web Developer   React | TailwindCSS | Firebase | Stripe API

- Developed a full-stack ecommerce website with a focus on being mobile-first. This website incorporates features such as user authentication and secure payment options, ensuring customers have a safe online shopping experience.

WORK EXPERIENCE

Pappasito's Cantina   Feb. 2023 – Present
Level 3 Server   Houston, TX

- Pitch to guests premium daily specials and provide detailed information when specifically asked about portions, ingredients, and food allergies while also communicating order details to kitchen staff and helping my coworkers.

Complete Speciality Solutions   Jan. 2020 – Present
Orthodontic Assistant   Houston, TX

- Assist the dentist's consultations by taking patient vitals and records including x-rays and photographs while also performing adjustments for each patient such as wire changes, repairing broken brackets, and taking impressions.
